

Producers requirements

1. Approval criteria of Angus animals

- Angus animals (weanlings m./f., Heifers/Bulls) including registered top bulls.
- Each animal receives from the production stage to fattening stage an Angus-certificate with 100% traceability.

2. Certification

- Certification / control of the companies, by QS-system and Angus audit (traceability).
- On the occasion of the regular QS- check-ups.

3. Special feeding requirements

- First of all roughage.
- Supplementary feeding in the finishing stage.
- In the final fattening phase straw accommodation desired.

4. Animals for fattening and beef production

- The carcasses have an optimal level of fat and marbling.
- Each carcass will be registered on Angus-certificate and have 100% traceability
- Certified Angus beef, marbled and tender meat parts and cut pieces for each quality demand.
- The forequarters are processed into Angus hamburgers and the precious pieces are sold in quality market.

5. Germany-wide trading
